TEGIWA Carbon Intake. Often referred to as the "whale penis" intake they increase power output by enhancing your Hondas breathing. This carbon induction kit is based on the tried and tested proven design design and comes with all the fixtures and fittings, and the filter to mount it smartly in your engine bay.

Tegiwa Powerchamber Intake - Integra Type R DC2 W/ABS

not really unless your fitting Type R or better cams. With a higher rev range. if not Id stick with the std b16a manifold. The Design of the type R mani is that it has shorter but slightly wider runners making it better flowing but only right up in the rev range past around 7600-8600.

Integra Type-R Intake Manifold on a B16a Engine | EK9.org ...

Product Information. Hondata have developed a special high temperature insulating gasket which replaces the stock intake manifold gasket. This and bypassing several heat sources significantly reduces the transfer of heat from the head to the intake and incoming air giving you up to 5% more

power.

Hondata Heatshield Gasket K20A Civic Type R EP3 / Integra ...

The reason it does this is the GSR was designed to give a smoother, more linear power band. The cam profiles, early VTEC and dual stage intake manifold are in place to accomplish this instead of the on/off powerband of many other VTEC engines.
